# Patrick Diamitani

AI Forward Deployed Engineer · Production AI Systems Architect

Chicago, IL | patrick.diamitani@gmail.com | linkedin.com/in/diamitani | github.com/diamitani | diamitani.com

## EXECUTIVE SUMMARY

AI Forward Deployed Engineer who builds production AI systems that organizations actually run on — not demos that impress once. Architect of 16 enterprise AI systems serving 50+ daily non-technical users, with $16M+ in attributed pipeline from AI-powered automation. Published researcher (ROSTR Framework), founder of 150+ custom GPTs, and builder of 6 shipped consumer products. Fifteen years across enterprise sales (Uber, Upwork, Asana), startup leadership ($200K→$1.5M revenue), and Techstars portfolio support ($100M+ raised). I don't just build AI — I deploy it into organizations, prove its ROI, and make it stick.

## CORE COMPETENCIES

**AI/ML Engineering:** Claude API/MCP, OpenAI GPT-4/Assistants, Azure OpenAI, RAG Architecture, Multi-Agent Systems, Prompt Engineering, LLM Fine-tuning, Ollama/Local LLMs

**Production Systems:** n8n/Make/Zapier, HubSpot CRM, Salesforce, Clay, Vercel/Next.js, Supabase, PostgreSQL, REST/GraphQL APIs

**Forward Deployment:** Enterprise AI Adoption, Change Management, Technical Training, ROI Attribution, Stakeholder Management, Cross-functional Leadership

**Domain Expertise:** GTM/Revenue Operations, Sales Automation, Compliance Systems, Attribution Modeling, Cost Engineering, Framework Design

## PROFESSIONAL EXPERIENCE

**GTM AI & Automation Manager — Atlas HXM (Global Employer of Record)** 2023 — 2026

*Remote · 500+ Employees · 160+ Countries*

- Architected and deployed 16 production AI systems across sales, marketing, and RevOps serving 50+ non-technical users daily — including a two-channel AI inbound system (chatbot + form automation) that attributed $9M+ in pipeline within 30 days, with a $250K deal traced to a single chat conversation.
- Built the GTM AI Platform — not one automation, but the operating system a 50-person org runs its AI adoption on: published ROSTR methodology, self-serve project intake engine, and 40+ skill library that cut idea-to-production from 4-8 hours to under 30 minutes.
- Designed and shipped an AI compliance screening system that corrected 100+ misclassified deals and more than doubled detection of ineligible opportunities — hybrid architecture with LLM interpretation + deterministic rules engine + full audit trails.

- Rebuilt a failing 4-agent post-call automation from 0/25 passing runs to fully verified production — diagnosed RAG architecture failures, pivoted to deterministic file fetch, reduced context from 882KB to 295KB while assembling 116K characters of live country data per call.
- Owned and resolved a runaway enrichment spend incident, then redesigned the system around free ICP gates and tiered cost profiles — cutting spend ~70% by architecture, not vigilance. Turned owned mistake into permanent organizational safeguard.
- Established AI governance standards: dry-run defaults, shared error handling, cost reporting on every workflow, three-tier attribution model that deliberately excluded $1.1M+ in flattering-but-false revenue for honest measurement.

**Founder & Principal — Diamitani Industries (Holding Company)** 2014 — Present

*Chicago, IL · NY C-Corp*

- Built and shipped 6 production consumer products: LOLA (AI fitness), Replai (AI messaging), FCR Agent (credit repair), Huddle (7,000+ coworking locations), Let's Vibe AI (social connection), Artispreneur Academy (music business education).
- Created GPTPAT marketplace with 150+ custom GPTs across programming, productivity, sales, creative, civic, and lifestyle — all published in the GPT Store with real daily users.
- Founded Gency AI (AI software development consulting) and SalesGency (GTM AI consulting) — applying enterprise production discipline to client engagements.
- Published the ROSTR Framework on Zenodo (DOI: 10.5281/zenodo.19550414) — a citable architecture for production-grade multi-agent systems with PAL, RAG DAL, NPAO, and Rostr Hub components.
- Built Your48 civic intelligence platform for Chicago's 48th Ward — making local government accessible through AI-powered constituent services.

**Head of Sales — DreamItReel (Video Production SaaS)** 2021 — 2023

*Chicago, IL*

- Scaled revenue from $200K to $1.5M ARR as founding sales leader — built the sales playbook, hired and trained the team, and established repeatable enterprise motion.
- Closed enterprise accounts including Fortune 500 marketing teams seeking scalable video production solutions.
- Designed and implemented CRM automation that reduced sales cycle by 30% through intelligent lead scoring and automated follow-up sequences.

**Associate — Techstars Chicago** 2019 — 2021

*Chicago, IL*

- Supported portfolio companies that collectively raised $100M+ in follow-on funding, with two successful acquisitions.
- Provided hands-on GTM support to early-stage founders on sales strategy, pitch refinement, and market positioning.
- Facilitated mentor matching and managed relationships across the Techstars network.

**Enterprise Account Executive — Uber, Upwork, Asana** 2016 — 2019

*Chicago, IL / San Francisco, CA*

- Uber for Business: Closed enterprise accounts for corporate travel program, consistently exceeded quota, pioneered city-level enterprise motion.
- Upwork Enterprise: Sold workforce solutions to Fortune 1000, managing complex procurement cycles and multi-stakeholder deals.
- Asana: Enterprise work management sales, developed deep expertise in operational workflow design that informed later automation work.

**Founding Partner — Omicon Entertainment** 2010 — 2016

*Chicago, IL*

- Built to $2M annual revenue producing 1,000+ live entertainment shows for 80,000+ college students across the Midwest.
- Managed P&L, vendor relationships, and 15-person event staff — full operational ownership from booking to execution.
- Developed systematic approach to event operations that scaled across multiple university partnerships simultaneously.

## PUBLICATIONS & RESEARCH

**ROSTR: A Unified Architecture for Production-Grade Multi-Agent Systems with Phase-Aware Orchestration and Persistent Knowledge Compounding**

*Zenodo · DOI: 10.5281/zenodo.19550414 · April 2026*

A published, citable framework for building production AI systems. Introduces PAL (Prompt Abstraction Layer), RAG DAL (Dynamic Acquisition Layer with credibility-weighted retrieval), NPAO (5D phase taxonomy with 4D priority scoring), and Rostr Hub (four-level persistent state). Validated across 16 production systems serving 50+ daily users.

**Production AI Systems Library**

*diamitani.com/portfolio · Active*

Complete documentation of 16 enterprise AI systems, 40+ Claude skills, and 11 production workflows — including architecture diagrams, stack details, challenges & fixes, and demonstrated ROI for each build.

## SHIPPED PRODUCTS

**LOLA — AI Fitness · trainlola.com**

Personalized workout plans from social video

**Replai — AI Messaging · replaiall.com**

Rewrite impulsive texts before sending

**FCR Agent — Fintech AI · fcragent.com**

AI-powered credit repair guidance

**Huddle — SaaS Directory · huddleco.work**

7,000+ coworking spaces, 1,100+ cities

**GPTPAT — GPT Marketplace · gptpat.co**

150+ custom GPTs in GPT Store

**Your48 — Civic Tech · your48.com**

Civic intelligence for Chicago's 48th Ward

## EDUCATION

**University of Illinois at Chicago** — Business Administration · Entrepreneurship Focus

## CIVIC ENGAGEMENT

**Precinct Captain — Chicago 48th Ward · Democratic Party** Current

- Elected Democratic Precinct Captain serving Chicago's 48th Ward (Edgewater/Andersonville)
- Built Your48 civic intelligence platform and Leni48 campaign operations dashboard
- Apply same production discipline to civic tech — technology that serves organizing, not replaces it
